1. Introduction

The **TNCC – Kasumulu Collection Management System** is a web application used by the cooperative to record the crops that members bring in, raise an **invoice** for each collection, record the **payment** made to the member, print a thermal-style **receipt**, and produce **reports** on collections and crop performance.

Typical end-to-end workflow

Who uses the system

The system has two main (built-in) user types:

User type	Description
Admin	Full access to the whole system: master data (units, crops), people, invoices, payments, reports, roles & permissions and trash. The Admin also decides which other roles exist and what each one can do.
Member	Farmer who supplies crops and is paid. Members are the “customers” on invoices and receive payment SMS confirmations.

Custom roles

Any other roles are **not fixed**. The Admin creates, renames or removes them as the cooperative needs, and switches their permissions on or off on the Roles page (Section 10). For example, the system comes with sample roles such as *Chairperson* and *Accountant*, but an Admin could add a *Cashier* role that can only create invoices, record payments and print receipts, or a *Clerk* role that can only register members.

A newly created role has **no permissions** until the Admin switches them on (Section 10). Staff are then given the role from **People › Staff › Change Role** (Section 6.3).

Menus and buttons you do not have permission for are hidden or blocked, so your screen may show fewer options than the screenshots in this guide (which were taken as Admin).

2. Getting Started

2.1 Logging in

1. Open the system address in your web browser (Chrome, Edge or Firefox). You will be taken to the **Login** page.
2. In **Phone Number or Email** type your email address or your phone number in the format **+255XXXXXXXXXX**.
3. Type your **Password**. Click the eye icon to show/hide what you typed.
4. Optionally tick **Remember me** to stay logged in on this computer.
5. Click **Log In**. You will land on the Dashboard.

Figure 2.1 – Login page

New members and staff created in the system get their **phone number (e.g. +255712345678)** as their first **password**. Ask them to change it after first login (Section 12.2).

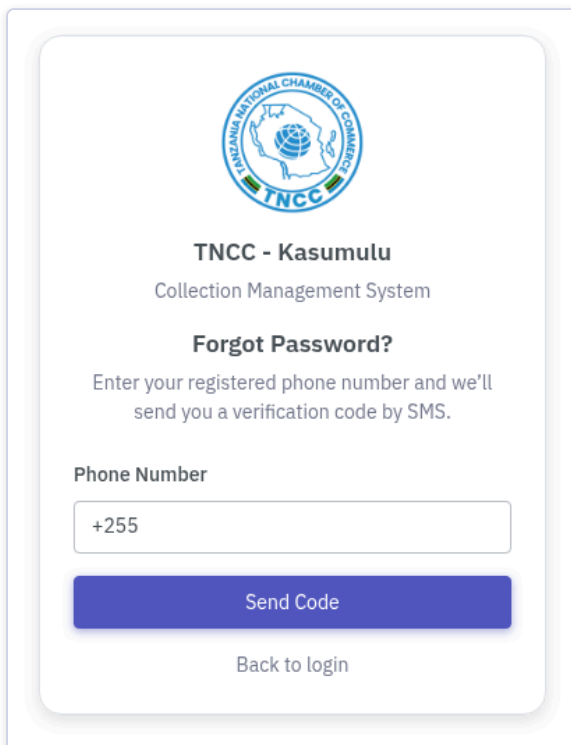

If the details are wrong, the field is highlighted in red with the message *“These credentials do not match our records.”* After several wrong attempts the login is temporarily locked; wait a minute and try again.

Figure 2.2 – Wrong password message

2.2 Forgot password (reset by SMS code)

If you forget your password you can set a new one yourself using a one-time verification code (OTP) sent by SMS to your registered phone number.

1. On the login page click **Forgot password?**.
2. Enter your **registered phone number** in the format **+255XXXXXXXXXX** and click **Send Code**. If the number is not registered you will see *"We could not find an account with that phone number."*
3. You receive an SMS with a **5-digit code**. The code is valid for **5 minutes** and can be used only once.
4. On the **Enter Verification Code** page type the 5-digit code and click **Verify Code**.
5. On the **Create New Password** page enter your new password (at least 8 characters) twice and click **Reset Password**.
6. You are returned to the login page with the message *"Your password has been reset."* Log in with your new password.

Figure 2.6 – Password reset confirmation

Situation	What happens / what to do
Code not received	Wait one minute, then click Resend code . A new code replaces the old one.
“The code you entered is incorrect.”	Check the SMS and type the code again. After 5 wrong attempts the code is blocked – request a new one.
“This code has expired.”	More than 5 minutes have passed. Click Resend code .
Wrong phone number entered	Click Use a different phone number .
“Your reset session has expired.”	The new password must be set within 10 minutes of verifying the code. Start again from <i>Forgot password?</i>

2.3 Screen layout

After login every page has the same layout:

- **Left sidebar (menu)** – icons for Dashboard, Invoices, Payments, Crops, Units, People (Members/Staff), Reports and Settings. Click the  button at the top to expand the menu with names, or collapse it back to icons.
- **Top bar** – the moon icon switches between light and dark mode; your name on the right opens the user menu (Profile, Change Password, Logout).
- **Page title and breadcrumb** – show where you are (e.g. *Home > Invoices*).

- **Data tables** – every list has **Show N entries**, a **Search** box, sortable columns (click a column heading) and **Previous / Next** paging.

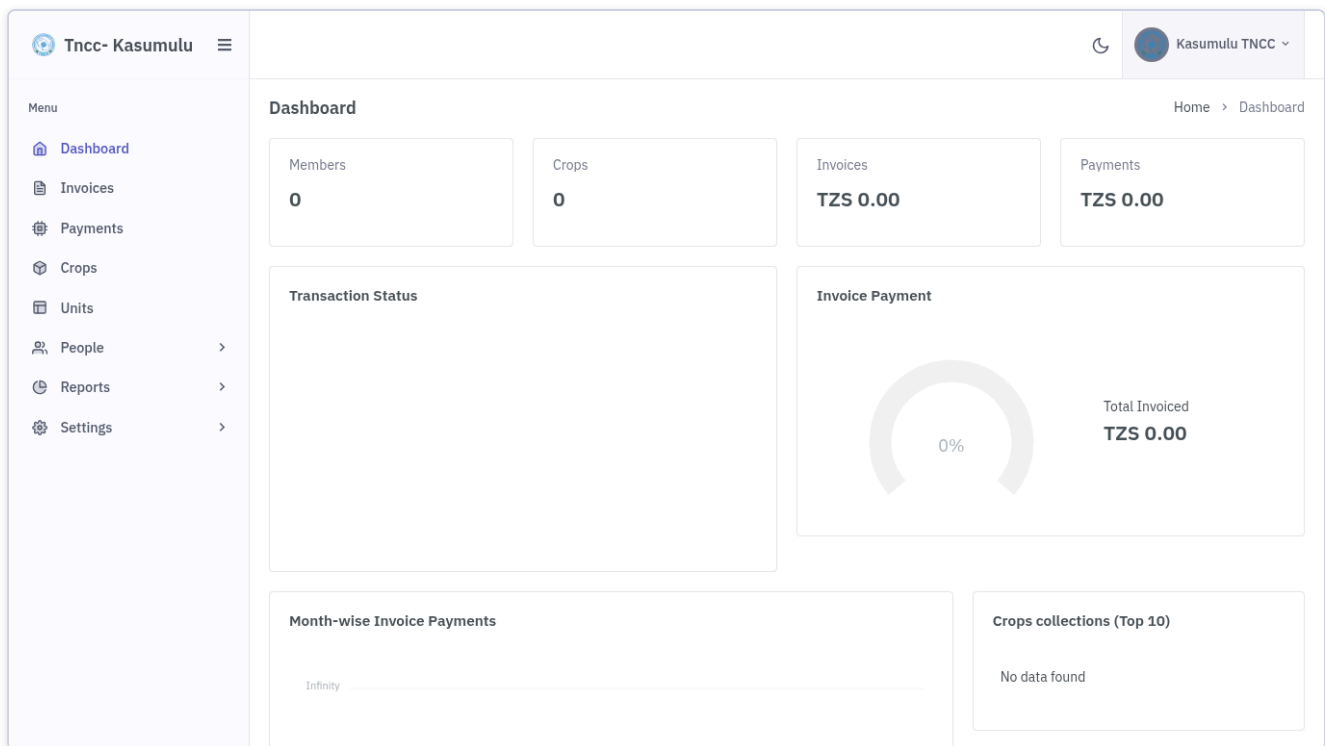

Figure 2.7 – Sidebar expanded showing all menu items

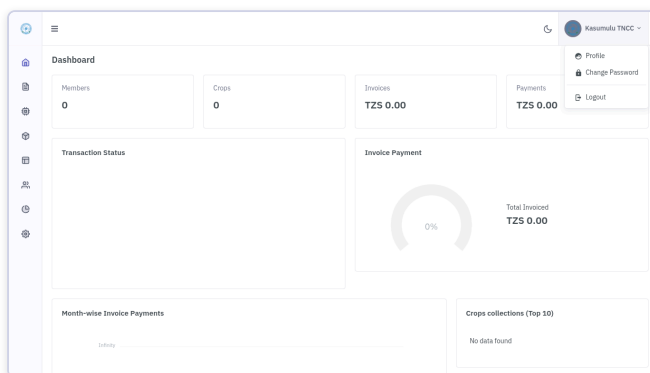

Figure 2.8 – User menu

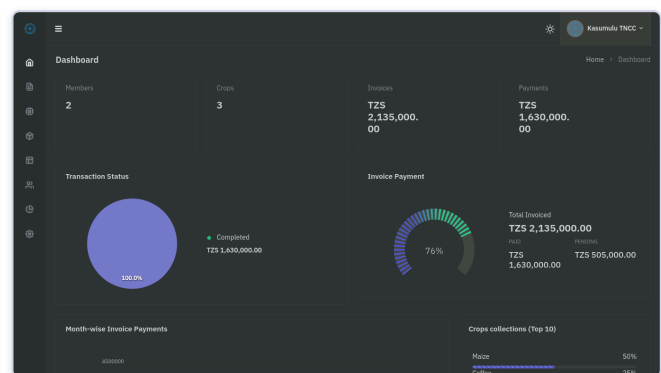

Figure 2.9 – Dark mode

Success messages appear as a green pop-up in the top-right corner or as a confirmation dialog in the centre of the screen; errors appear in red.

3. Dashboard

The Dashboard is the home page (**sidebar › Dashboard**). It summarises activity at a glance:

Widget	What it shows
Members / Crops	Number of registered members and crops.
Invoices / Payments	Total value invoiced and total value paid (TZS).
Transaction Status	Pie chart of payments by status (Completed, Pending, Failed).
Invoice Payment	Gauge showing the percentage of invoiced value that has been paid, with Paid and Pending amounts.
Month-wise Invoice Payments	Bar chart of invoiced vs paid amounts for each month of the year.
Crops collections (Top 10)	Share of each crop in the collections.
Recent Transactions / Recent Invoices	Latest payments and invoices with their status.

Page 9 of 31

4. Setting Up Units

Units of measure (e.g. Kilogram, Bag, Piece) describe how each crop is measured and priced. Kilogram, Bag and Piece are provided by default. Set up units **before** adding crops.

4.1 Add a unit

1. Click **Units** in the sidebar.
2. Click **+ Add New**.
3. Enter the **Name** (e.g. *Tonne*) and **Abbreviation** (e.g. *t*).
4. Click **Save**. A green “created successfully” message appears and the unit is listed.

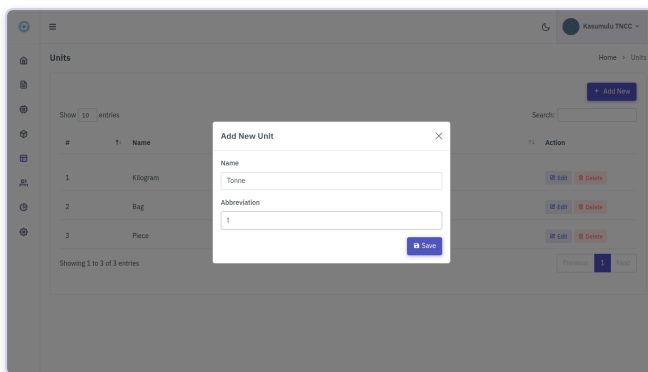

Figure 4.1 – Add New Unit

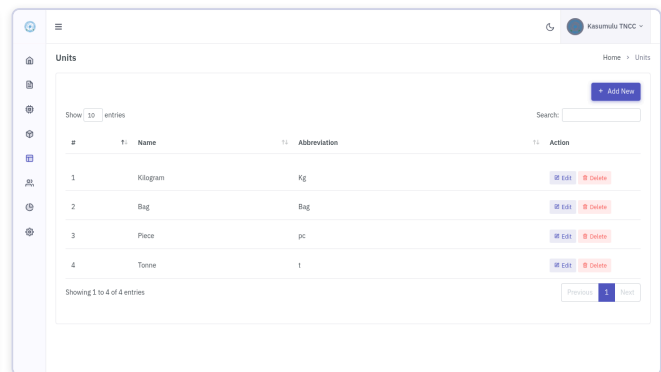

Figure 4.2 – Units list

4.2 Edit or delete a unit

Use the **Edit** button on a row to change a unit, then **Save**. Use **Delete** and confirm with **Yes, delete it!** to remove it. Deleted units go to the **Trash** and can be restored (Section 11).

5. Managing Crops

Crops are the products members deliver. Each crop has a **price per unit**; this price is used automatically when an invoice is created.

5.1 Add a crop

1. Click **Crops** in the sidebar.
2. Click **+ Add New**.
3. Fill in **Name** (e.g. Coffee), **Description** (e.g. grade/variety – Arabica Grade A), **Price** in TZS per unit, and choose the **Unit**.
4. Click **Save**.

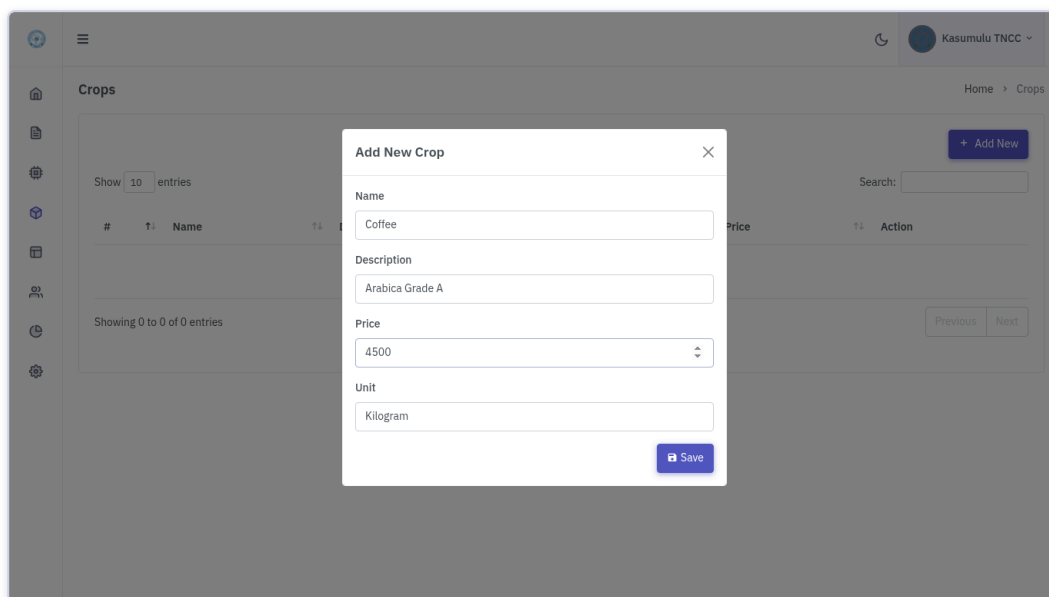

Figure 5.1 – Add New Crop

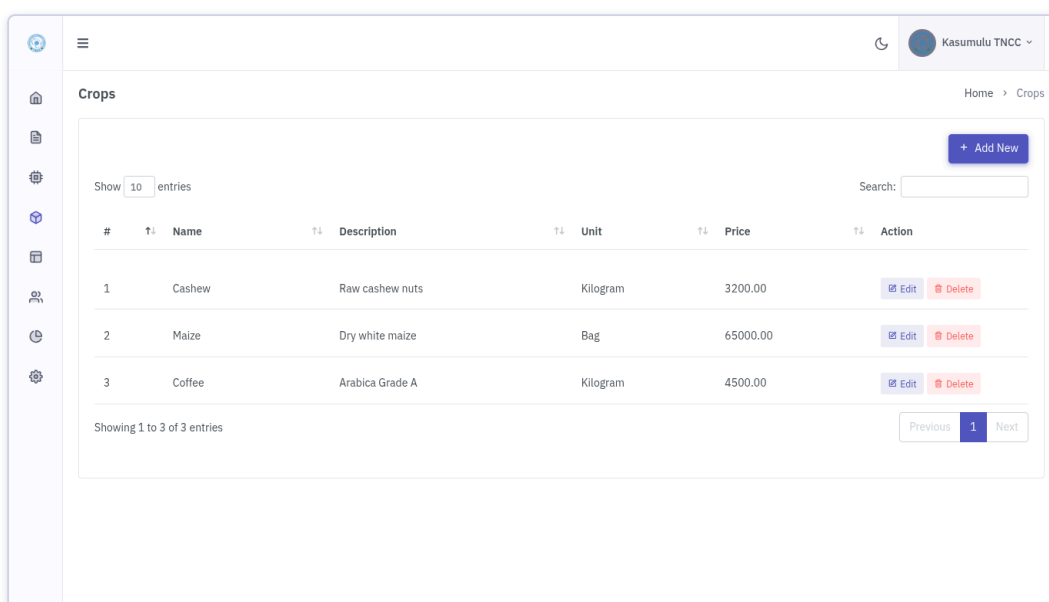

Figure 5.2 – Crops list

5.2 Edit a crop / change its price

Click **Edit** on the crop row, change the fields and click **Save**.

A price change applies to **new** invoices only. Invoices already created keep the price that was in force when they were raised.

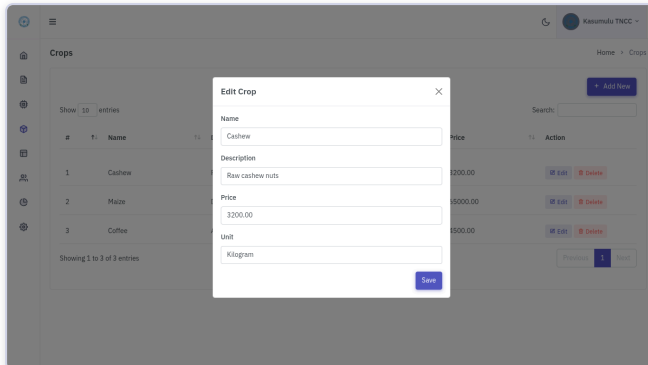

Figure 5.3 – Edit Crop

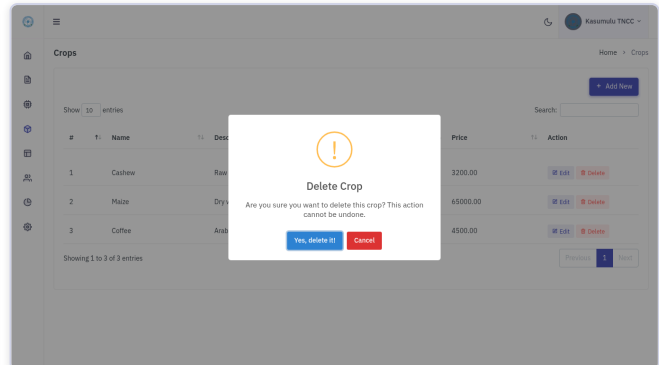

Figure 5.4 – Delete confirmation

5.3 Delete a crop

Click **Delete**, then **Yes, delete it!** to confirm or **Cancel** to keep it. Deleted crops can be restored from Trash.

6. Managing People

The **People** menu has two lists: **Members** (farmers who supply crops and are invoiced/paid) and **Staff** (Admins and any users with a custom role created by the Admin, who operate the system).

6.1 Register a member

1. Click **People > Members**.
2. Click **+ Add New**.
3. Enter **First Name**, **Last Name**, **Phone**, **Email** and **Address** (village/location).
4. Click **Save**. The member receives the **Member** role automatically.

The phone number must be a Tanzanian number in the international format **+255** followed by 9 digits, e.g. **+255712345678** (13 characters). Phone numbers and emails must be unique.

Figure 6.1 – Add New Member

#	First Name	Last Name	Phone	Email	Address	Role	Action
1	Juma	Kibona	+255700000102	juma.demo@example.com	Ngona Village	Member	Edit Delete Change Role
2	Asha	Mwakyusa	+255700000101	asha.demo@example.com	Kasumu Village	Member	Edit Delete Change Role

Figure 6.2 – Members list

6.2 Add a staff user

1. Click **People > Staff** and click **+ Add New**.
2. Fill in the same details as for a member, and select the **Role** – Admin or any custom role the Admin has created.
3. Click **Save**. The staff member can now log in with their email or phone; their first password is their phone number.

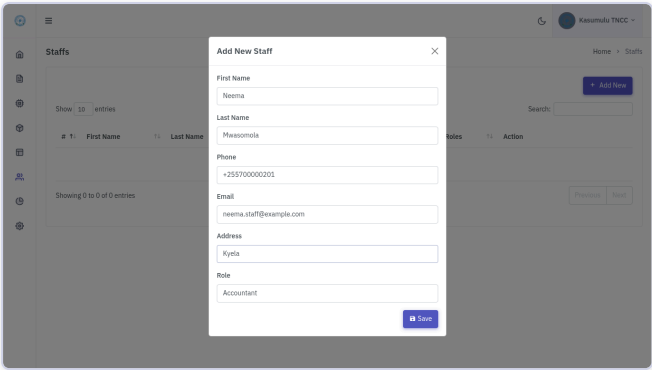

Figure 6.3 – Add New Staff

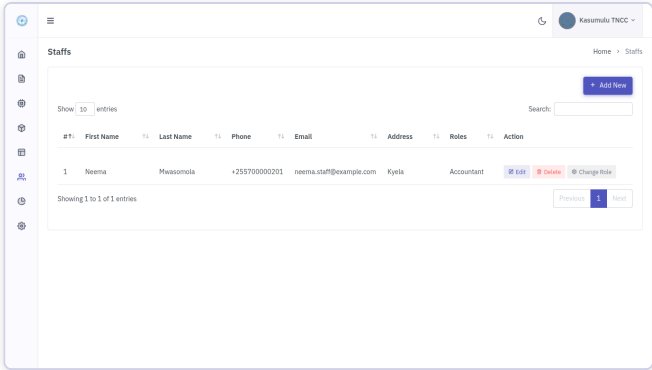

Figure 6.4 – Staff list

6.3 Edit, delete or change role

- **Edit** – update the person's name, phone, email or address, then **Save**.
- **Delete** – removes the person (can be restored from Trash).
- **Change Role** – shows the current role; pick the new role(s) and click **Save**. Requires the *Update Settings* permission.

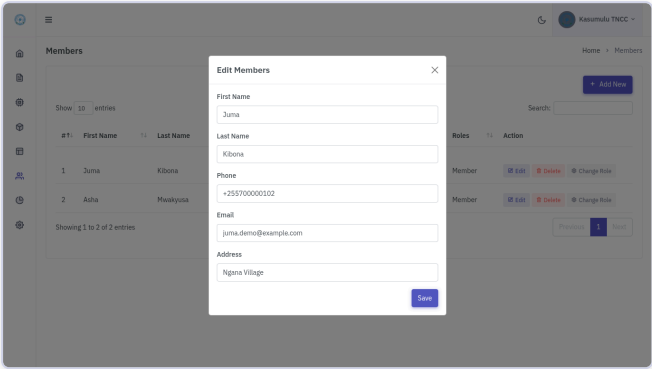

Figure 6.5 – Edit Member

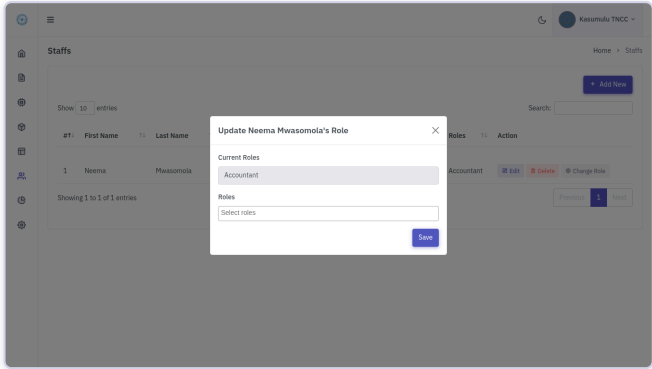

Figure 6.6 – Change a user's role

7. Invoices

An invoice records a member's delivery of one or more crops. The system multiplies the quantity by the crop's current price to calculate the amount owed to the member. New invoices start with status **Pending** and become **Paid** once a payment is recorded.

7.1 Create an invoice

1. Click **Invoices** in the sidebar, then **+ Add New**. The **Create New Invoice** window opens.
2. **1. Select Member** – type part of the member's name or phone number in the search box and click the correct member in the results. The member card (name, address, phone) is shown. Click the red **x** to choose a different member. If the member is not found, click **Add New** in the results to register them on the spot.
3. **2. Add Crop** – type a crop name and click it in the results. It is added to the table with its price and unit. Repeat for each crop delivered.
4. Enter the **QTY** (quantity) for each crop. The **Amount** for each line and the **3. Summary** (items, sub-total, total) update automatically. Use the bin icon to remove a line.
5. Click **Save**. A confirmation shows the member's name and total. Click **OK**.

Create New Invoice

1. Select Member

and pick a member.

2. Add Crop

NO.	CROP	PRICE (TZS)	UNIT	QTY	AMOUNT
No crops added yet. Use the search above to add crops to this invoice.					

3. Summary

Items	0
Sub Total (TZS)	0.00
Total (TZS)	0.00

Cancel Save

Figure 7.1 – Searching for a member

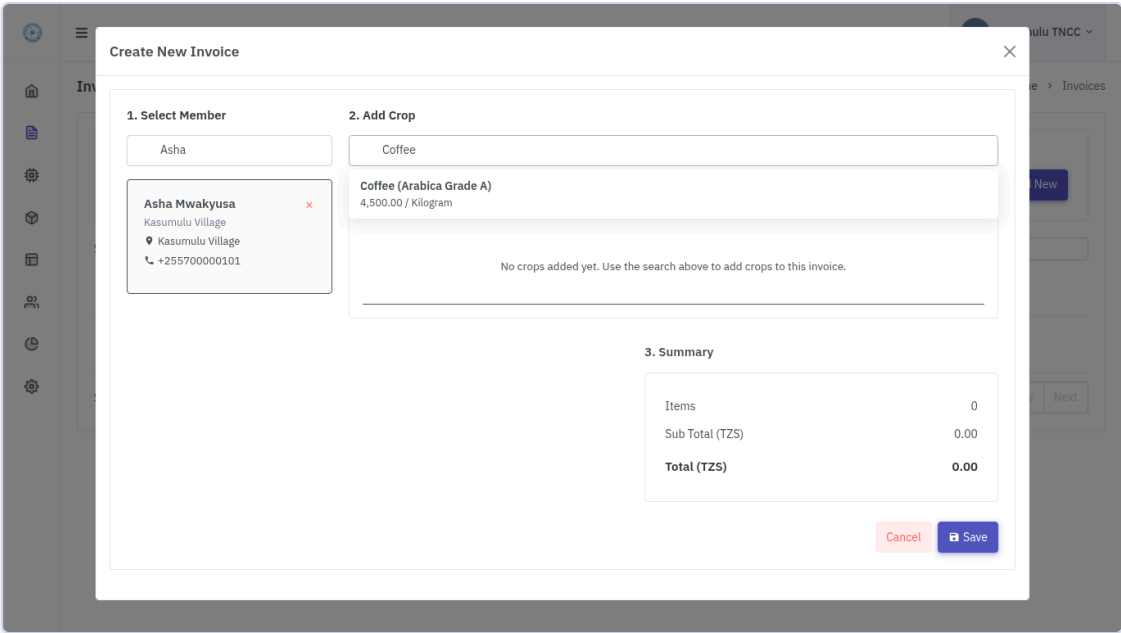

Figure 7.2 – Searching for a crop

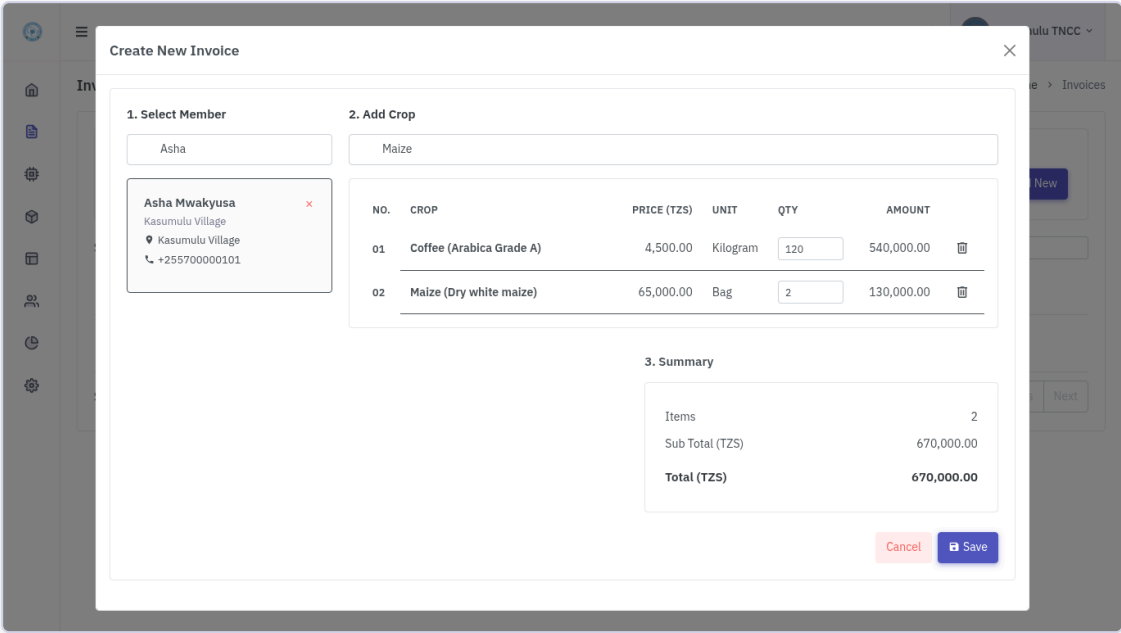

Figure 7.3 – Completed invoice ready to save

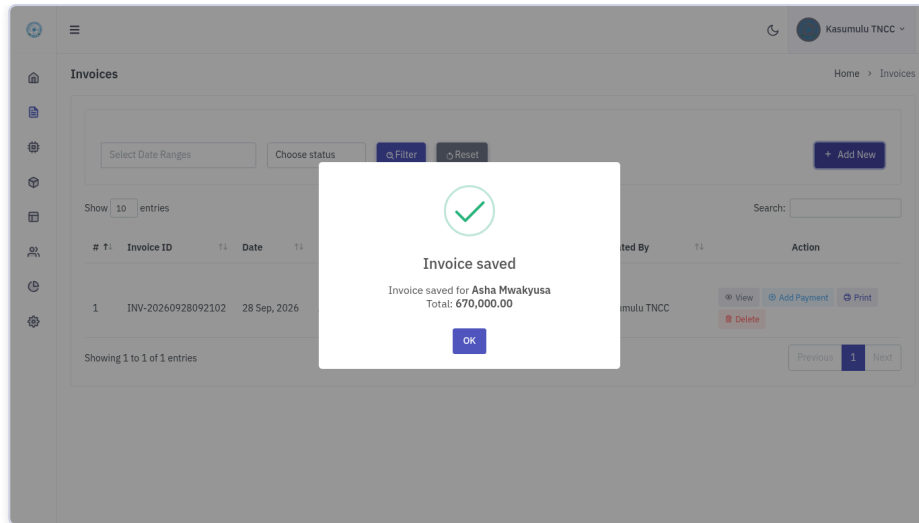

Figure 7.4 – Invoice saved confirmation

7.2 Invoice list, status and filters

The Invoices page lists invoices created **this month** by default. Each row shows the Invoice ID (format INV-YYYYMMDDhhmmss), date, member, amount, status and who created it.

Status	Meaning	Actions available
Pending	Invoice raised, member not yet paid.	View, Add Payment, Print, Delete
Paid	Payment recorded.	View, Print
Overdue	Invoice past due.	View, Print

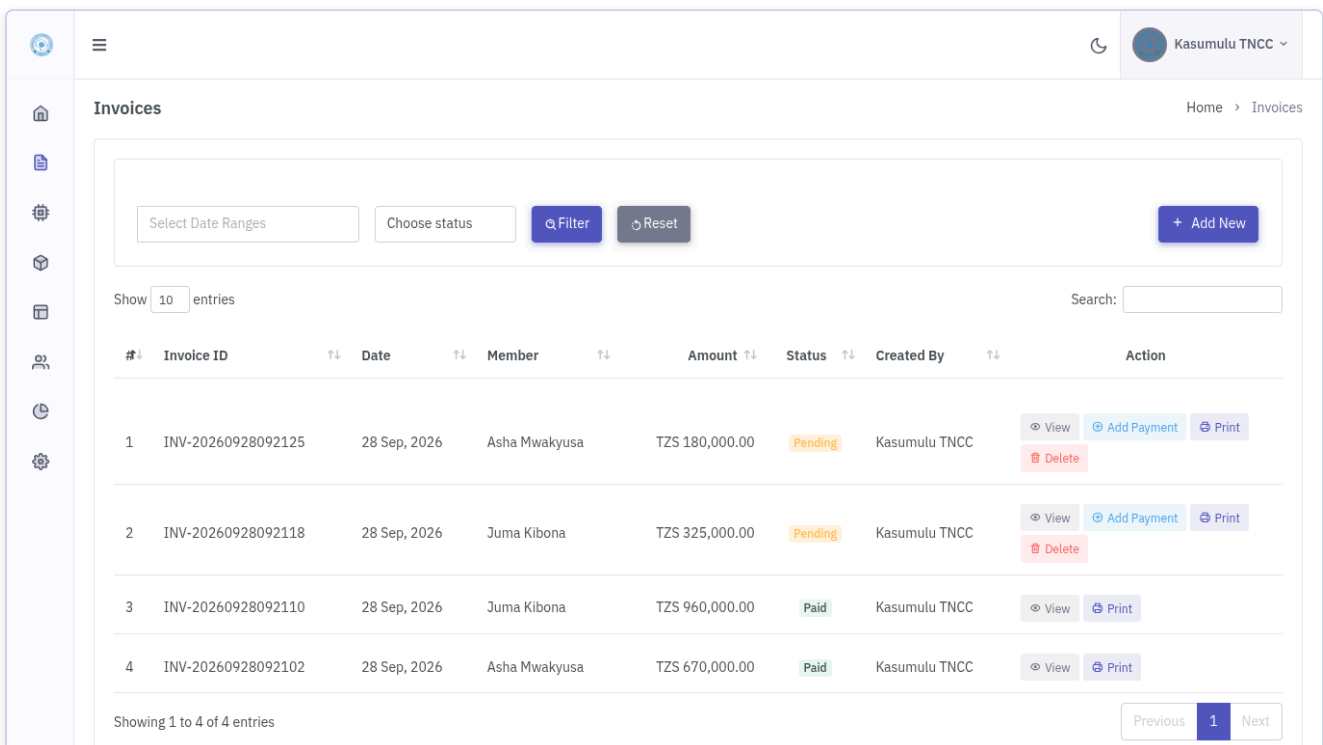

Figure 7.5 – Invoice list showing Pending and Paid invoices

To filter: click **Select Date Ranges** and pick a start and end date on the calendar, and/or choose a status in **Choose status**, then click **Filter**. Click **Reset** to clear the filters.

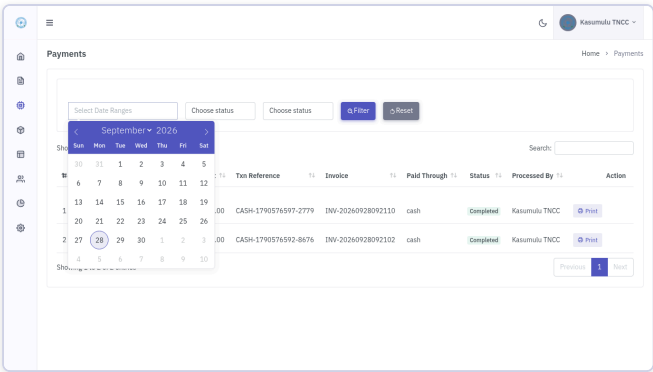

Figure 7.6 – Date range picker

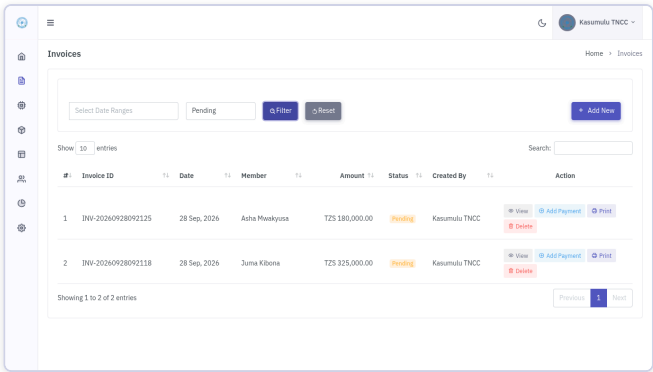

Figure 7.7 – Invoices filtered to Pending

7.3 View an invoice

Click **View** to open the full invoice: cooperative details, *Billed To* (member), invoice info (status, payment status, reference, method) and the list of items with totals.

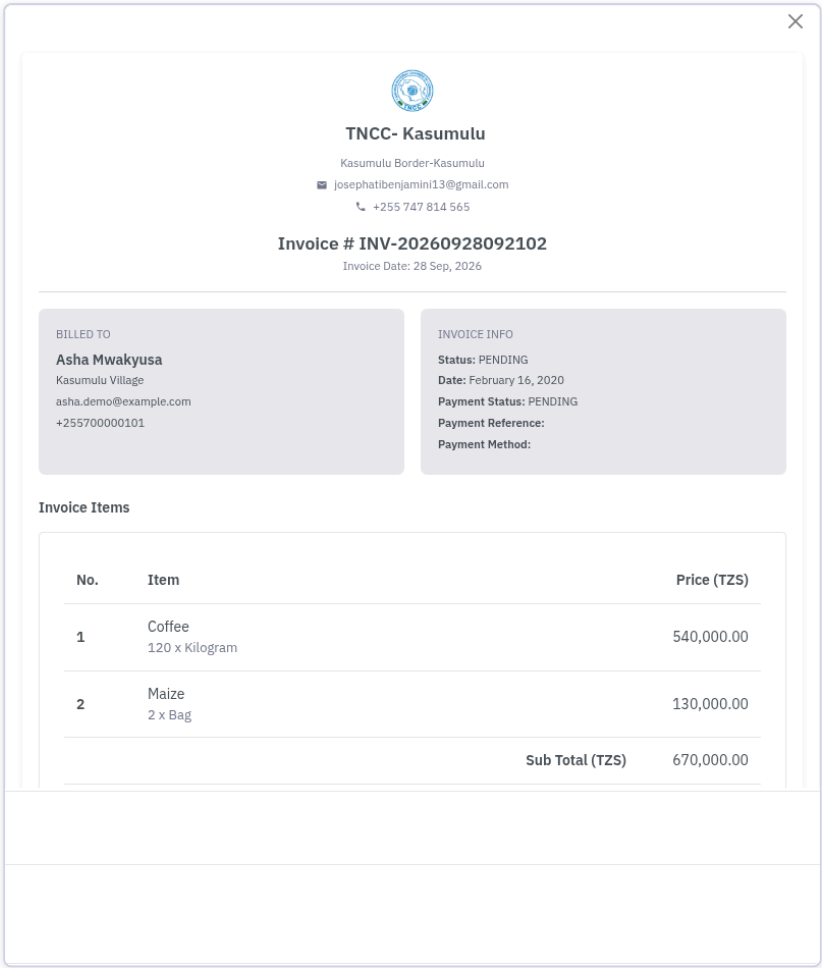

Figure 7.8 – Invoice details

7.4 Delete an invoice

Only **Pending** invoices can be deleted. Click **Delete** and confirm. The invoice is moved to Trash and can be restored (Section 11).

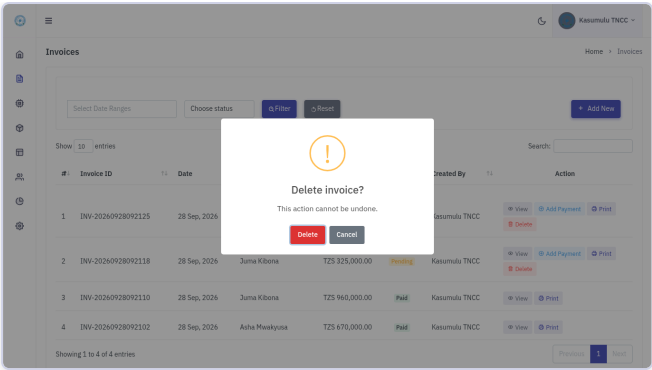

Figure 7.9 – Delete confirmation

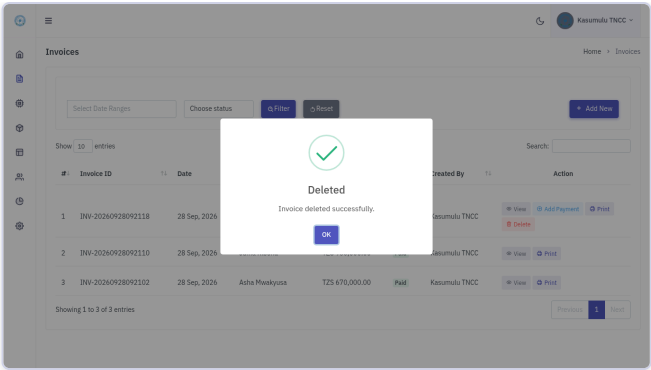

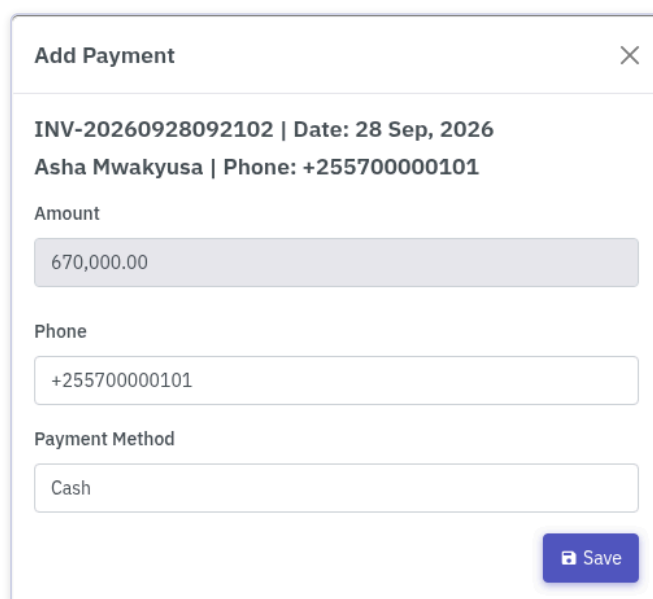

Figure 7.10 – Invoice deleted

8. Payments & Receipts

8.1 Record a payment

1. On the **Invoices** page, find the Pending invoice and click **Add Payment**.
2. The Add Payment window shows the invoice number, date, member and the **Amount** (the full invoice total – it cannot be changed).
3. Check the **Phone** number (pre-filled with the member's phone). The payment confirmation SMS is sent to this number.
4. Keep **Payment Method** as **Cash** and click **Save**.
5. A **Payment Received** message appears. The invoice status changes to **Paid**, and a payment record with a reference such as **CASH-1790576592-8676** is created.

Add Payment [Close]

INV-20260928092102 | Date: 28 Sep, 2026
Asha Mwakyusa | Phone: +255700000101

Amount

670,000.00

Phone

+255700000101

Payment Method

Cash

Save

Figure 8.1 – Add Payment window

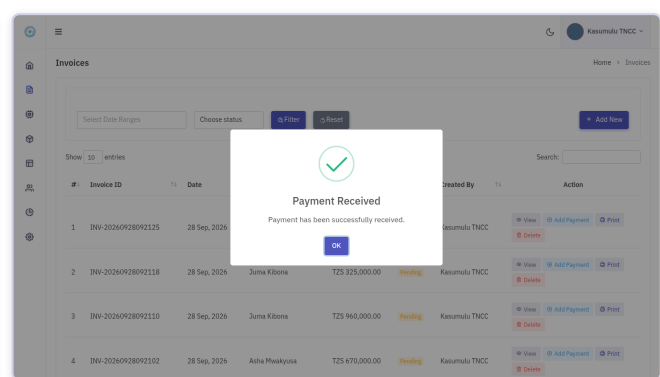

Figure 8.2 – Payment received

After a cash payment the member receives an SMS (in Kiswahili) confirming the amount and the payment reference. Payments cover the **full** invoice amount – partial payments are not supported. Cash is currently the only payment method available on screen.

8.2 Print a receipt

Click **Print** on a paid invoice (Invoices page) or on a completed payment (Payments page). A receipt sized for an **80 mm thermal printer** opens showing invoice number, date, status, payment method, time, cashier, member, items and totals. Click **Print Receipt** to send it to the printer, or **Back** to return.

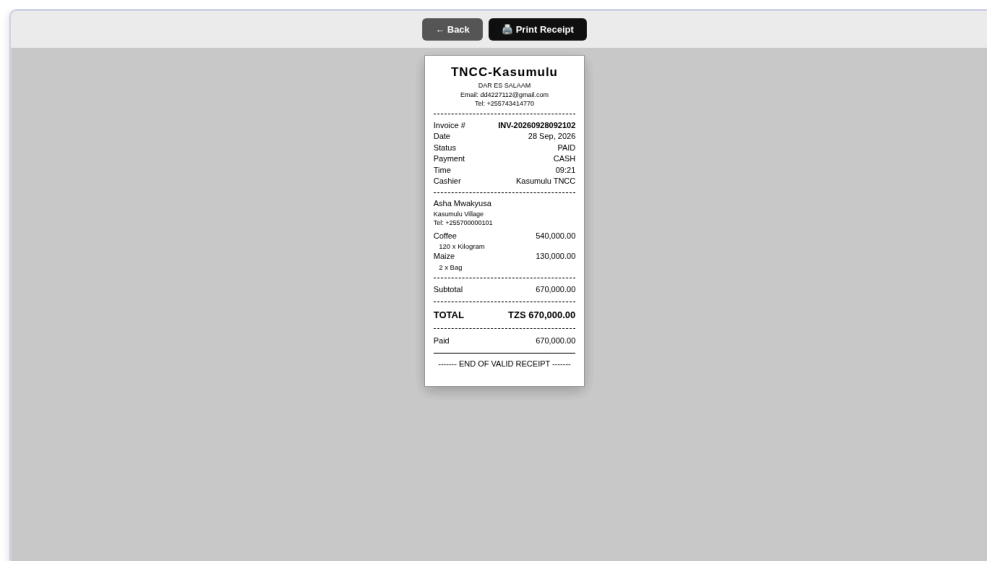

Figure 8.3 – Thermal receipt

8.3 Payments list

Sidebar › Payments lists all payments for the current month: date, payer, amount, transaction reference, invoice, method (*Paid Through*), status and the staff member who processed it. Filter by date range, method and status, then click **Filter**.

Figure 8.4 – Payments list

Payment status	Meaning
Completed	Payment done; receipt can be printed.
Pending	Payment started but not yet confirmed.
Failed	Payment did not go through; it can be deleted and re-done.

Deleting a (non-completed) payment sets its invoice back to **Pending**.

9. Reports

Open **Sidebar > Reports**. Both reports show today's data by default; choose a date range and click **Filter** to change the period. Use the buttons above the table to **Copy** the data, export to **Excel** or **PDF**, or choose which columns are shown (**Column visibility**).

9.1 Collection Summary Report

One line per crop item on paid invoices: date, transaction reference, member, crop, quantity, rate, amount and who recorded it. Use it to reconcile daily collections and cash paid.

Collection Summary Report : 2026-09-28 Home > Reports

Select Date Ranges Filter Reset

Copy Excel PDF Column visibility Search:

#	Date	Txn Reference	Member	Crop	Qty	Rate	Amount	Recorded By
1	28-09-2026	CASH-1790576592-8676	Asha Mwakyusa	Coffee (Arabica Grade A)	120	4500.00	540000.00	Kasumulu TNCC
2	28-09-2026	CASH-1790576592-8676	Asha Mwakyusa	Maize (Dry white maize)	2	65000.00	130000.00	Kasumulu TNCC

Figure 9.1 – Collection Summary Report

9.2 Crop Performance Report

One line per crop: number of members who supplied it, total weight/quantity, average quantity per member, and total amount.

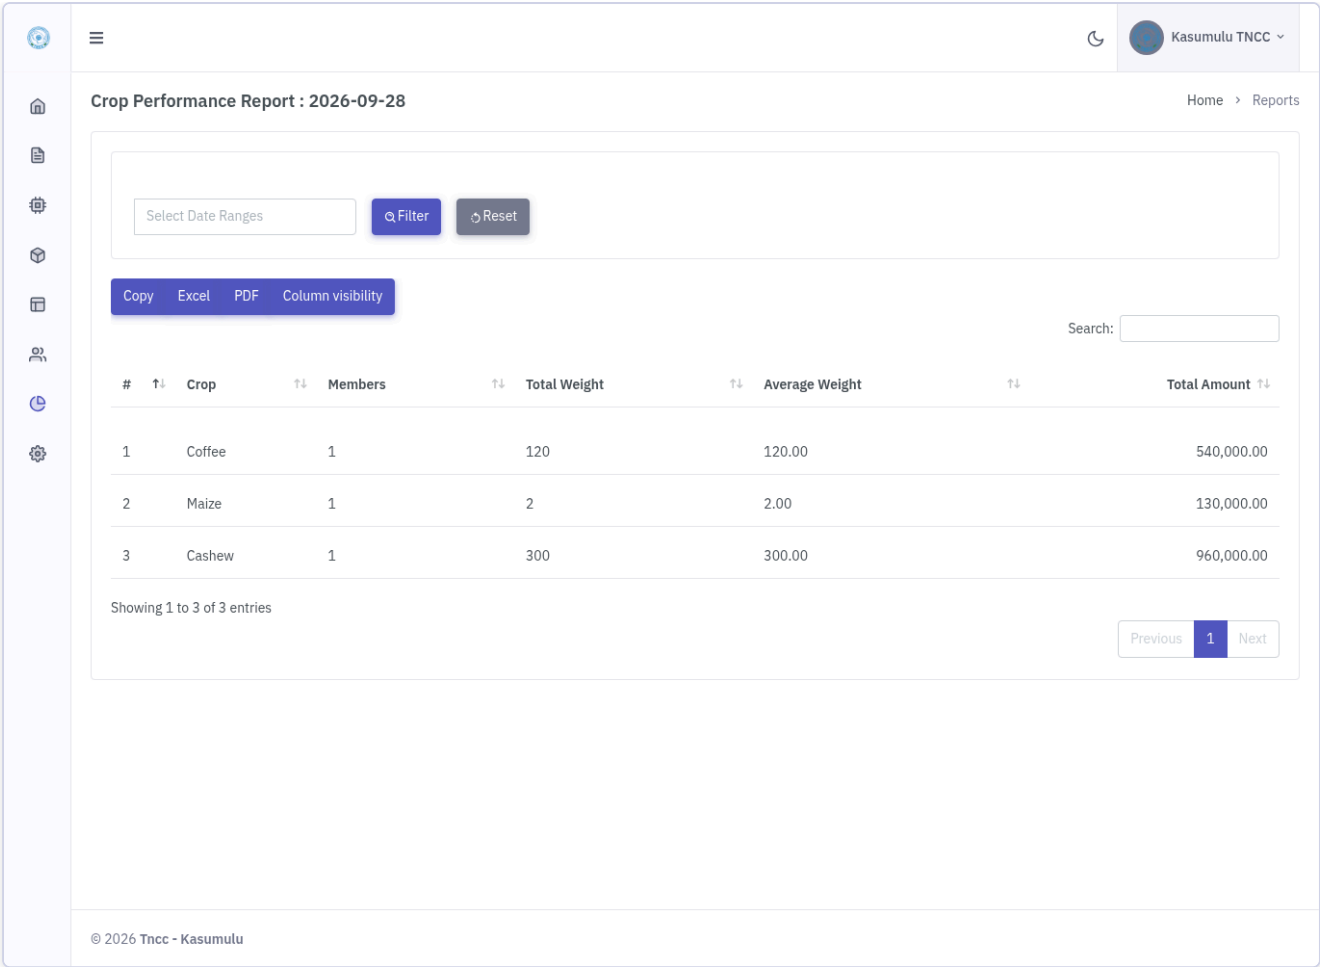

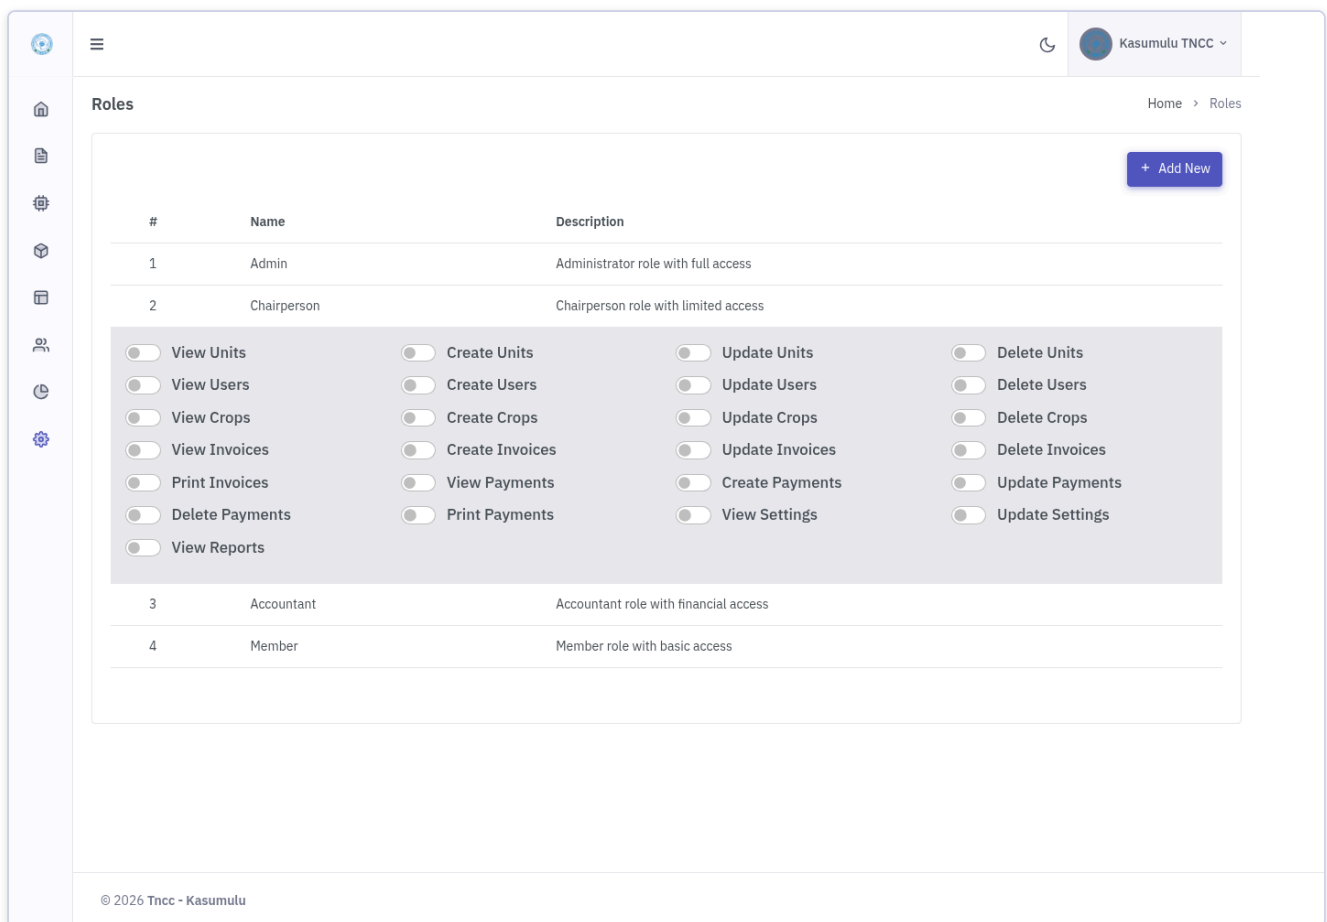

Figure 9.2 – Crop Performance Report

10. Settings: Roles & Permissions

Open **Sidebar** › **Settings** › **Role Permissions**. The page lists all roles.

10.1 Grant or remove permissions

1. Click a role row (e.g. a custom role such as *Chairperson*). Its permissions open below as on/off switches.
2. Switch a permission **on** to grant it or **off** to remove it. The change is saved immediately – there is no Save button.
3. Click the role row again to close it. Users with that role see the change the next time they open a page.

The screenshot displays the 'Roles' management page. At the top, there's a breadcrumb 'Home > Roles' and a '+ Add New' button. Below this is a table listing roles:

#	Name	Description
1	Admin	Administrator role with full access
2	Chairperson	Chairperson role with limited access
3	Accountant	Accountant role with financial access
4	Member	Member role with basic access

Below the table, the permissions for the selected 'Chairperson' role are shown in a grid of 16 toggle switches, all of which are currently turned off:

- View Units, Create Units, Update Units, Delete Units
- View Users, Create Users, Update Users, Delete Users
- View Crops, Create Crops, Update Crops, Delete Crops
- View Invoices, Create Invoices, Update Invoices, Delete Invoices
- Print Invoices, View Payments, Create Payments, Update Payments
- Delete Payments, Print Payments, View Settings, Update Settings
- View Reports

At the bottom left, the footer reads '© 2026 Tncc - Kasumulu'.

Figure 10.1 – Permissions for a custom role (all switched off by default)

10.2 Add a new role

Click **+ Add New**, enter a **Name** and short **Description**, and click **Save**. Then grant permissions to it as above, and assign it to staff with **Change Role** (Section 6.3).

Add New role

Name

Description

Save

Figure 10.2 – Add a role

11. Settings: Trash

Deleted invoices, payments, crops, units and users are not removed straight away – they go to the Trash, where they can be restored or permanently deleted.

1. Open **Sidebar > Settings > Trash**.
2. Choose a **Category** (Invoices, Payments, Crops, Units or Users) and optionally a date range, then click **View**.
3. Click **Restore** and confirm with **Yes, restore it** to put the item back in its normal list.
4. Or click **Delete** to remove the item **permanently**.

Permanent delete from Trash **cannot be undone**. Double-check before confirming.

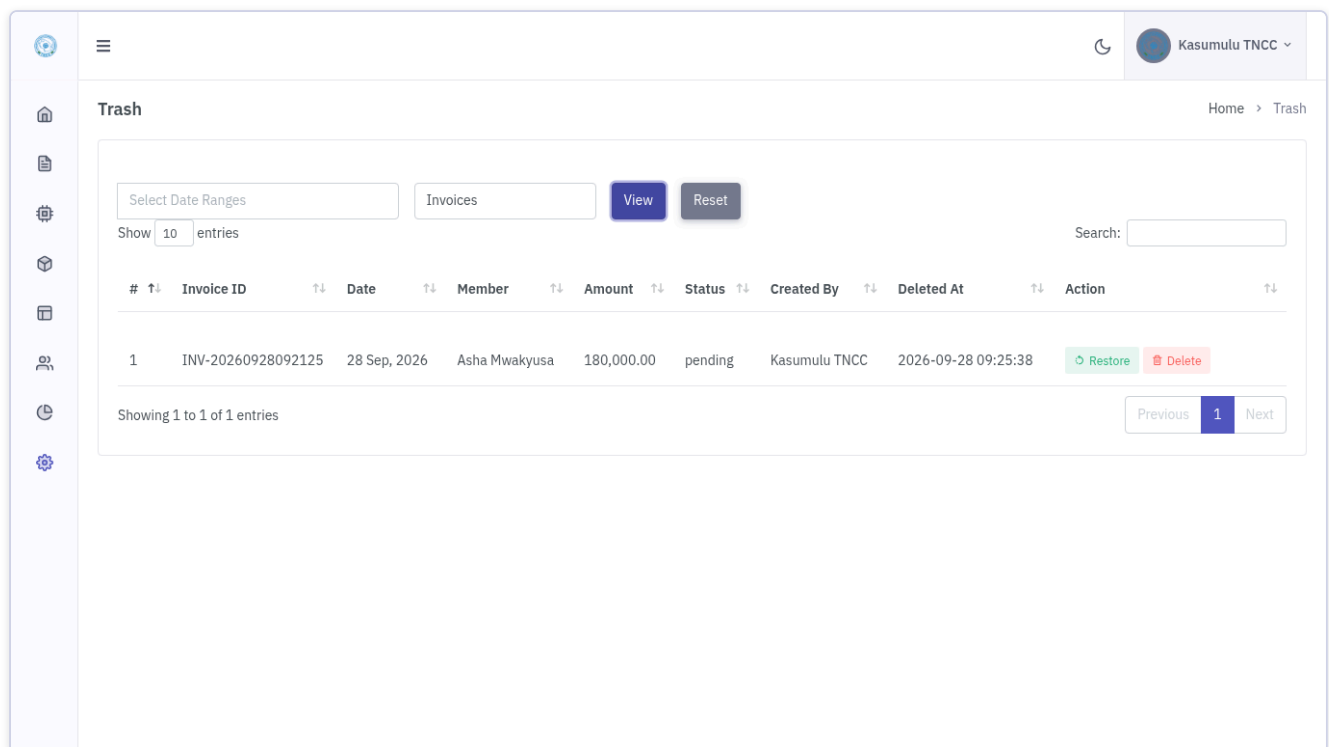

Figure 11.1 – Deleted invoice in Trash

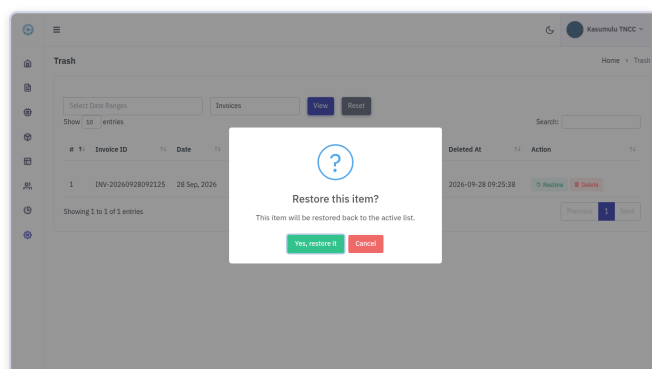

Figure 11.2 – Restore confirmation

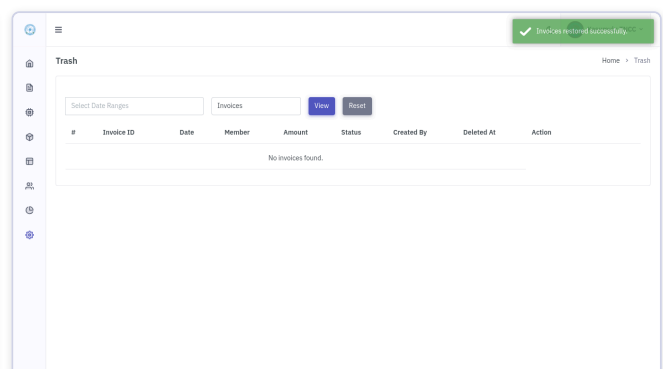

Figure 11.3 – Item restored

12. My Account

12.1 Update your profile

Click your name at top-right > **Profile**. The **My Account** window shows your first and last name, phone, email, address and role. Edit the details and click **Update**. (Your role can only be changed by an Administrator.)

The screenshot shows the 'My Account' modal form overlaid on the dashboard. The form has the following fields and values:

- First Name: Kasumulu
- Last Name: TNCC
- Phone: +255743123456
- Email: testadmin@tncckasumulu.or.tz
- Address: (empty field)
- Role: Admin (selected from a dropdown)

At the bottom of the form, there are two buttons: 'Close' and 'Update'.

Figure 12.1 – My Account

12.2 Change your password

1. Click your name > **Change Password**.
2. Enter your **Current Password**, the **New Password** and repeat it in **Confirm Password**.
3. Click **Save**.

The screenshot shows the 'Create new Password' modal form overlaid on the dashboard. The form has the following fields:

- Current Password: (empty field)
- New Password: (empty field)
- Confirm Password: (empty field)

At the bottom of the form, there is a 'Save' button.

Figure 12.2 – Change password

12.3 Log out

Click your name > **Logout**. You are returned to the login page. Always log out on shared computers.

13. Permissions Reference

Permissions are granted per role in **Settings › Role Permissions**. What each permission controls:

Area	Permissions
Units	View, Create, Update, Delete
Users (Members & Staff)	View, Create, Update, Delete
Crops	View, Create, Update, Delete
Invoices	View, Create, Update, Delete, Print
Payments	View, Create, Update, Delete, Print
Settings	View (Roles page), Update (change user roles, toggle permissions)
Reports	View

If a user needs to...	Grant
Register members	View Users, Create Users
Create invoices	View Invoices, Create Invoices, View Crops
Pay members and print receipts	View Invoices, Create Payments, Print Invoices / Print Payments, View Payments
See reports	View Reports
Manage roles and trash	View Settings, Update Settings

14. Troubleshooting & FAQ

Problem	What to do
“These credentials do not match our records”	Check the email/phone (phone must start with +255) and password. New users' first password is their phone number. If you have forgotten it, use Forgot password? to reset it with an SMS code (Section 2.2).
A menu or button is missing	Your role does not have that permission. Ask the Admin to enable it (Section 10).
“You do not have permission...” message	Same as above.
Phone number rejected	Use the format +255 followed by 9 digits, e.g. +255712345678, with no spaces.
Member or crop not found when creating an invoice	Click Add New in the search results to register it without leaving the invoice window.
Invoice list looks empty	By default only the current month is shown. Use the date range filter.
Cannot delete an invoice	Paid invoices cannot be deleted.
Something was deleted by mistake	Restore it from Settings › Trash .
Receipt prints too wide/small	In the browser print dialog choose the thermal printer, set margins to “None” and scale 100%.

Screenshots in this guide were taken with sample (demonstration) data.
